Sunny Singh - Resume

Aspiring Full-Stack Developer | BSc IT Student

Nallasopara East, Maharashtra, India | +91 7350288505 | sunnysinghforeverat@gmail.com | linkedin.com/in/sunny-singh-1924 | github.com/RajputSunny1924

Professional Summary

Third-year BSc IT student and full-stack developer building end-to-end web and AI-driven applications with Python, FastAPI, ReactJS and MySQL. Experienced in REST APIs, JWT authentication, real-time WebSocket systems, multi-agent AI automation, and Technical, On-Page and Off-Page SEO. Seeking an entry-level Full-Stack Developer or Python Developer role.

Technical Skills

- **Languages:** Python, JavaScript (ES6), HTML5, CSS3, SQL
- **Frontend:** ReactJS, Responsive Web Design, Component-Based UI Development
- **Backend and APIs:** FastAPI, Flask, RESTful API Design, WebSockets, JWT Authentication
- **Databases:** MySQL, SQLAlchemy ORM, Relational Database Design, MySQL Workbench
- **AI and Automation:** AI Agent Development, Multi-Agent Systems, Workflow Automation
- **SEO:** Technical SEO, On-Page SEO, Off-Page SEO
- **Tools:** Git, GitHub, VS Code, Antigravity, pip, Python venv
- **Core Concepts:** OOP, Data Structures, CRUD Operations, Exception Handling

Projects

Portfolio Website | ReactJS, HTML5, CSS3, SEO

- Designed and developed a responsive personal portfolio website to showcase projects, skills and contact details.
- Applied Technical and On-Page SEO practices to improve search visibility.

Private Chat Application | React, FastAPI, MySQL, WebSockets, JWT

- Built a real-time private messaging platform with JWT-based authentication, WebSocket communication and online/offline presence.
- Implemented message status tracking (sent, delivered, seen) with persistent storage in MySQL.

JARVIS - AI Desktop Assistant | Python, React, FastAPI

- Developed a voice-controlled AI desktop assistant that automates system, browser and application operations.
- Integrated a ReactJS frontend with a FastAPI backend for a modern, responsive interface.

AI Multi-Agent Automation System | Python, AI Agents, Automation

- Designed and built a multi-agent AI system, inspired by agentic assistants such as Antigravity, where specialised agents collaborate on tasks.
- Coordinated multiple agents to plan and execute multi-step workflows with minimal manual input.

Education

Bachelor of Science in Information Technology (BSc IT) | St. Rocks College, Borivali West | Currently in Third Year

HSC: St. Rocks College, Borivali West | SSC: Adarsh Education Society

Achievements

- Built four end-to-end applications spanning real-time communication, AI assistants and multi-agent automation.
- Active GitHub contributor; continuously improving problem-solving through coding challenges and real-world projects.

Soft Skills

Communication, Teamwork, Problem Solving, Quick Learner, Self-Motivated, Positive Attitude
